Next Generation ESG Data Management Software

novisto

"As a public company, we are faced with increasing demands around ESG disclosure, complex data collection, and a desire to improve our performance. As a technology-based business, we are proud to be a launch partner for Novisto's AI-driven ESG management platform."

Hélène V. Gagnon
Chief Sustainability Officer and Senior Vice President, Stakeholder Engagement

CAE

Own your ESG narrative

Create value from your ESG strategy, data, and reporting.

Capital markets, regulatory bodies, employees, third-party data providers, and customers alike are increasingly seeking transparency from companies on their performance in managing environmental, social, and governance (ESG) issues. The time is now to get ESG right and own your narrative for important stakeholders.

Novisto is an end-to-end enterprise software platform for sustainability management, empowering companies to create value from their ESG strategy, data, and reporting.
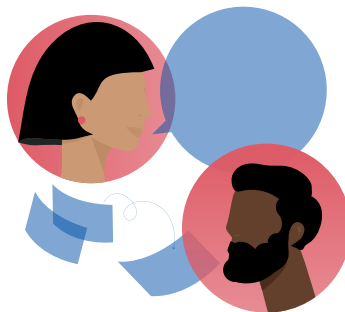

How can Novisto help you?

Sustainability and Corporate Responsibility

Spend less time on data collection and navigating the complex landscape of reporting frameworks and more time on benchmarking, sustainability strategy, and execution.

Investor Relations and Communications

Take control of your ESG narrative, disclose what is material to your investors, seamlessly answer third-party ESG questionnaires, and conduct competitive analysis with a click of a button.
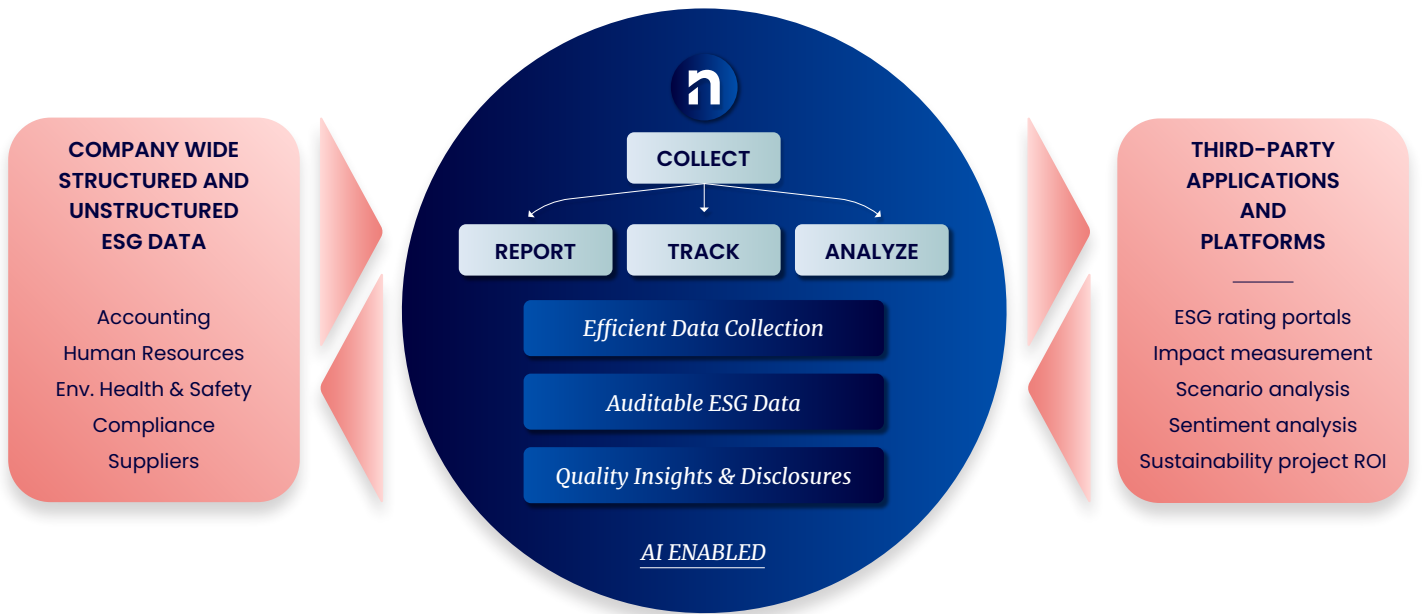

C-Suite and Boards

Identify and manage ESG risks and opportunities, review and improve your company's performance, and take data-driven decisions with ESG data you can trust.

Your ESG System of Record

Consolidate your sustainability data and reporting in one place and leverage the power of automation and AI-driven insights for better decision-making and value creation.

What makes Novisto's ESG Data Management Software unique?

Scalable and agile, Novisto's trailblazing platform empowers you at every step of your sustainability journey. Get ready to operationalize and unify your ESG processes.

Trust

Capture and consolidate your complex ESG data in a secure and traceable way that streamlines both internal and external auditing.

Efficiency

Make time for what matters most. Manage your ESG programs and performance by automating your processes. Get a centralized data management platform to simplify the collecting, reporting, and analyzing of your data.

Insight

Gain a holistic view of your ESG performance. Use your data to track targets, drive change in outcomes, and easily connect your sustainability performance to your financial performance.

Accelerate your sustainability & ESG reporting journey

Novisto supports companies at every stage of ESG maturity. Collect more comprehensive data. Simplify your reporting process. Move towards effective management of your ESG programs. And start integrating sustainability throughout your business.

Data Management

Be empowered by your data

→ Manage the complexity of your ESG data with Novisto.

→ Benefit from flexible and extensible ESG data schema centralized on our secure SaaS platform.

→ Harness the power of automated data collection, data indexing, and data governance.

→ Accelerate your reporting activities, internal and external audits, and performance analysis.

ESG Data Collection

Get quality in and quality out

→ Eliminate the need for spreadsheets. Start leveraging data governance to properly collect, validate, and elevate your ESG data.

→ Use Novisto's automated and collaborative workflows, document imports, ETLs, and APIs to build a central system of record.

→ Collect and utilize both quantitative and qualitative data from all your business units and geographic operations.

Sustainability Reporting

Bring stability to your reporting practices

→ Navigate the shifting regulatory landscape with confidence.

→ Leverage your centralized data to build ESG reporting content with enhanced accuracy and consistency for a more compelling performance narrative.

→ Simplify your reporting by embedding standard-compliant data into your qualitative narrative.

Third-Party Questionnaires

Ratings and rankings agency integrations

→ Efficiently tackle recurring third-party questionnaires through automated workflows, metric mapping, and quick access to guidance.

→ With API integrations for S&P Global and CDP questionnaire submissions, Novisto becomes your one-stop solution.

"Novisto's platform allowed us to seamlessly collect all relevant data from 123 collaborators across our multiple portfolio companies with 0 technical issues. Furthermore, Novisto's knowledgeable ESG team has been a tremendous help in validating which metrics would allow us to accurately assess our global ESG performance."

ESG Management

Manage your material ESG issues

→ Use your data to monitor your ESG risks and opportunities to make better-informed decisions.

→ Take action as part of a continuous ESG improvement journey.

## Collaborative Workflows

Coordinate all your ESG practices

→ Reduce manual inputs, streamline collaboration, and share information across all your teams for a more efficient reporting process.

→ Count on Novisto's user scalability, easy-to-use Requests module, and clear role assignments to ensure everyone's on the same page when it comes to ESG.

AI-Powered Insights

Create customized and actionable analysis

→ Keep your ESG targets on point.

→ With Novisto, you can leverage AI-powered benchmarking to generate insights on your sustainability performance relative to your peers.

Integrations & Data Flows

Always stay connected

→ Easy to onboard, Novisto helps you future-proof your current tech stack.

→ Our platform is designed to support ESG data collection and data outputs with all types of enterprise systems.

Novisto supports major sustainability and ESG reporting standards, frameworks, regulations, and questionnaires.
