## SCOR joins the “EuroStoxx Select Dividend 30” index

On Friday 6 March 2010, STOXX announced SCOR’s addition to its “EuroStoxx Select Dividend 30” index. The underlying component data (new numbers of shares and free-float factors) for all indices will be announced on March 12, 2010 after the close of European markets. The listing will become effective on 19 March 2010 after the close of the European markets.

SCOR SE was chosen as one of five new securities to join the EuroStoxx Select Dividend 30 (which is an index listing the 30 most attractive European companies in terms of dividends).

For the 2009 financial year, a dividend of EUR 1.00 was proposed at the AGM, representing an increase of 25% compared to the dividend paid out in 2009 (EUR 0.80) and a payout rate of 48%. As indicated in the press release of 3 March 2010, and subject to approval of the Annual General Meeting of 28 April 2010, shareholders will be able to opt for a dividend in shares.

SCOR shares are included in the STOXX Europe 600, the SBF 120 and the CAC Next 20 indices.

Thus, any forward-looking statements contained in this communication should not be held as corresponding to such profit forecasts. Information in this communication may include "forward-looking statements", including but not limited to statements that are predictions of or indicate future events, trends, plans or objectives, based on certain assumptions and include any statement which does not directly relate to a historical fact or current fact. Forward-looking statements are typically identified by words or phrases such as, without limitation, "anticipate", "assume", "believe", "continue", "estimate", "expect", "foresee", "intend", "may increase" and "may fluctuate" and similar expressions or by future or conditional verbs such as, without limitations, "will", "should", "would" and "could." Undue reliance should not be placed on such statements, because, by their nature, they are subject to known and unknown risks, uncertainties and other factors, which may cause actual results, on the one hand, to differ from any results expressed or implied by the present communication, on the other hand.

Additional information regarding risks, uncertainties and pending litigations is set forth in the 2009 reference document registered with the AMF under number D.10-0085 ("Document de Référence") and subsequently updated in the half year report, both available on SCOR website [www.scor.com](http://www.scor.com). As a result of the extreme and unprecedented volatility and disruption of the current global financial crisis, SCOR is exposed to significant financial, capital market and other risks, including movements in interest rates, credit spreads, equity prices, and currency movements, changes in rating agency policies or practices, and the lowering or loss of financial strength or other ratings.
