

## Press Release

19 September 2017 - N° 24

### The SCOR Corporate Foundation for Science and the SCOR group announce the winners of two risk economics awards during the EGRIE seminar

During the 44<sup>th</sup> annual seminar of the European Group of Risk and Insurance Economists (EGRIE), two awards sponsored by the SCOR Corporate Foundation for Science and the SCOR group were presented on Monday 18 September 2017:

- The *SCOR-Geneva Risk and Insurance Review Best Paper Award* was presented to Michel Denuit, Louis Eeckhoudt, Liqun Liu and Jack Meyer for their article titled "Tradeoffs for Downside Risk-Averse Decision-Makers and the Self-Protection Decision";
- The *SCOR-EGRIE Young Economist Best Paper Award*<sup>1</sup> was presented to Sebastian Ebert for his article titled "Decision Making When Things Are Only a Matter of Time".

These two awards are coordinated under the auspices of the research chair "Risk Markets and Value creation", which links IDEI (Institute of Industrial Economics, Toulouse), the Risk Foundation and Paris-Dauphine University. The "Risk Markets and Value creation" chair is sponsored by the SCOR group and supported by the SCOR Corporate Foundation for Science. The jury for the *SCOR-Geneva Risk and Insurance Review Best Paper Award* was chaired by the chief editors of the Geneva Risk and Insurance Review: Michael Hoy, Professor of Economics at the University of Guelph, Canada, and Nicolas Treich, Research Director Toulouse School of Economics (INRA), France. The jury for the *SCOR-EGRIE Young Economist Best Paper Award* was chaired by the Executive Secretary of EGRIE, Michael Hanselmann, a researcher at the Institute for Risk Management and Insurance, Ludwig-Maximilians University, Munich.

**André Lévy-Lang, Chairman of the SCOR Corporate Foundation for Science**, comments: *"In 2017, the two SCOR-EGRIE awards have been won by innovative and highly valuable theoretical papers on risk-aversion behavior and the temporal dimensions of risk, which lead to the clarification and generalization of seminal risk economics theorems."*

**Philippe Trainar, Director of the SCOR Corporate Foundation for Science**, comments: *"The SCOR Foundation for Science is proud to reward the work of Michel Denuit, Louis Eeckhoudt, Liqun Liu, Jack Meyer and Sebastian Ebert, which contributes to the development of risk research in fields that should have significant applications for insurance and reinsurance."*

### **Forward-looking statements**

SCOR does not communicate "profit forecasts" in the sense of Article 2 of (EC) Regulation n°809/2004 of the European Commission. Thus, any forward-looking statements contained in this communication should not be held as corresponding to such profit forecasts. Information in this communication may include "forward-looking statements", including but not limited to statements that are predictions of or indicate future events, trends, plans or objectives, based on certain assumptions and include any statement which does not directly relate to a historical fact or current fact. Forward-looking statements are typically identified by words or phrases such as, without limitation, "anticipate", "assume", "believe", "continue", "estimate", "expect", "foresee", "intend", "may increase" and "may fluctuate" and similar expressions or by future or conditional verbs such as, without limitations, "will", "should", "would" and "could." Undue reliance should not be placed on such statements, because, by their nature, they are subject to known and unknown risks, uncertainties and other factors, which may cause actual results, on the one hand, to differ from any results expressed or implied by the present communication, on the other hand.

Please refer to the 2016 reference document filed on 3 March 2017 under number D.17-0123 with the French Autorité des marchés financiers (AMF) posted on SCOR's website [www.scor.com](http://www.scor.com) (the "Document de Référence"), for a description of certain important factors, risks and uncertainties that may affect the business of the SCOR Group. As a result of the extreme and unprecedented volatility and disruption of the current global financial crisis, SCOR is exposed to significant financial, capital market and other risks, including movements in interest rates, credit spreads, equity prices, and currency movements, changes in rating agency policies or practices, and the lowering or loss of financial strength or other ratings.

The Group's financial information is prepared on the basis of IFRS and interpretations issued and approved by the European Union. This financial information does not constitute a set of financial statements for an interim period as defined by IAS 34 "Interim Financial Reporting".
