

DR JENNIFER SCHOOLING

Director, Centre for Smart Infrastructure and Construction, University of Cambridge

Dr Jennifer Schooling is Director of the Centre for Smart Infrastructure and Construction (CSIC), at the University of Cambridge. CSIC brings together world-class engineering research, academic excellence and commercial industry to support the UK in becoming a world leader in the fields of sensing technology, asset management and smart city development.

Jennifer and her team work with more than 40 partners from across the infrastructure industry, including asset owners, consultants and contractors, and the technology supply chain, to develop commercial technologies, tools for data analysis and asset management, best practice guidance codes and specifications for scale-up and standardisation. CSIC also works with industry bodies including the Construction Leadership Council (CLC) and the Institution of Civil Engineers (ICE) to unite the industry in smart innovation.

Before joining CSIC, Jennifer worked in consulting engineering and in product development. Jennifer has a PhD in Materials Science from the University of Cambridge.

OLIVIER HAUTEFEUILLE

Chief Underwriting Officer, Industrial and Commercial Risk, SCOR Global P&C

A Civil Engineer, Olivier Hautefeuille started his career as a Site Engineer on the construction of the Cattenom Nuclear plant, before moving to the Middle East on several construction projects with major French contractors.

He joined SCOR in 1991 as a Construction Underwriter and has occupied different functions within the Company. Besides Paris he has worked in several major insurance hubs such as London and Hong Kong. His experiences include not only reinsurance but also insurance, with a focus on large corporate clients.

In 2007 he was appointed CUO for the Industrial and Commercial Risks and since 2012, Olivier is the CUO of Construction and Specialties within Business Solutions and the CEO of SCOR UK Company Ltd. He is currently based in London. He is also member of the Executive Committee of the International Machinery Insurer Association.
